ABOUT US

SINCE 2006

At Comfort Class, we're more than just a chimney sweep service — we're your complete home comfort specialists. With 20 years of experience in chimney, fireplace, heating, and air conditioning care, we take pride in keeping your home safe, efficient, and comfortable all year round.

What started as a small family business focused on chimney cleaning has grown into a full-service company offering masonry repairs, fireplace installations, heating and cooling solutions, and indoor air quality services. Our mission has always been the same: to provide honest, reliable, and expert service that homeowners can count on.

REMOTE UPGRADE

BREATHE EASIER AND STAY SAFER WITH A PROFESSIONAL CHIMNEY RELINE, BUILT TO PROTECT YOUR HOME FOR YEARS TO COME!

WHAT IS A CHIMNEY RELINE

A chimney reline involves installing a new liner inside your existing chimney flue to restore safety and performance. Over time, liners can crack, corrode, or become damaged, allowing dangerous gases, smoke, and heat to escape into your home. A new liner provides a smooth, properly sized passage for exhaust, improving draft and protecting your home from carbon monoxide and fire hazards.

CHIMNEY RELINE BENEFITS

- Restores safety by containing smoke, gasses and heat.
- Improves efficiency of your fireplace, stove, or furnace.
- Extends the lifespan of your chimney by preventing damage to the masonry.
- Allows proper venting for modern appliances that may not match the size of older flues.
- Provides peace of mind with a system that meets current safety standards.

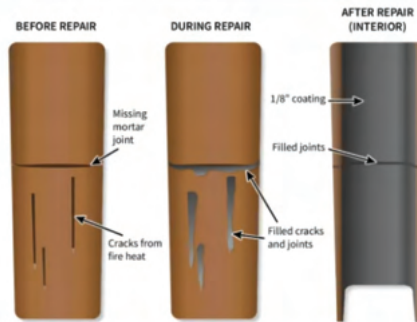

SIZE	HEAT SHIELD
SMALL (up to 10ft)	\$5,290

BEFORE VS. AFTER REPAIR

DAMAGED VS. FUNCTIONING

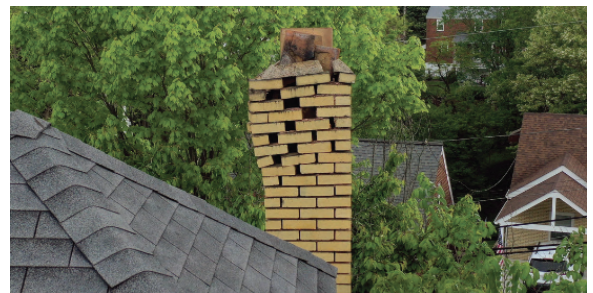

Heat shield and reline pricing starts at the amount shown. Final cost may vary based on the specific condition and requirements of your chimney.

WHY SHOULD I WATERPROOF MY CHIMNEY?

Waterproofing your chimney helps prevent water from entering your home and causing costly damage. Brick and mortar naturally absorb rain and snow, which can result in cracks, deterioration, and leaks. Even non-masonry chimneys are at risk, as water can seep in at the roof line or chase top. Proper protection is essential to keep your home safe and dry.

Comfort Class's waterproofing package protects your entire chimney, preventing water intrusion and safeguarding your home.

CUSTOM FABRICATION

At Comfort Class, we fabricate our own chimney caps in-house. Every cap is proudly American-made, ensuring quality craftsmanship you can count on.

FLAT INCLUDES:

- Flat Cap
- Crown Seal
- Flash Seal
- Water Repellent

HIP & RIDGE INCLUDES:

- Hip & Ridge Cap
- Crown Seal
- Flash Seal
- Water Repellent

HIP & RIDGE W/SEAMS INCLUDES:

- Hip & Ridge w/Seams
- Rain Collar with Seal
- Flash Seal
- Spark Arrestor

PREFAB WATERPROOFING PACKAGES

Every chimney needs protection. Choose a decorative shroud or chase cover to suit your home. Each package includes a rain collar, flash seal, and spark arrestor, all backed by a limited lifetime warranty.

*** WARRANTY VALID ONLY WITH YEARLY INSPECTION BY A COMFORT CLASS CERTIFIED PROFESSIONAL ***

FEATURES:

CUSTOM BUILT CHIMNEY CAP:

- 6 colors to choose from
- Protects your entire chimney, not just your flue
- Sheds water away from the stack

CROWN COAT:

- Seals any previous damage to your crown
- Prevents further cracking and water damage to the crown

WATER REPELLENT:

- Seals your chimney stack from moisture intrusion
- Your chimney bricks will shed water
- Still allows your chimney stack to breathe and sweat

FLASH SEAL:

- Prevents water from entering your home or chimney at the roof line
- Covers your current roof flashing for a water tight seal
- Acts like a rubber boot for your chimney

UPGRADE YOUR HOME'S LOOK AND SAFETY WITH A DURABLE, HIGH-QUALITY CHIMNEY REBUILD FROM OUR EXPERIENCE MASONS!

CHIMNEY REBUILDS

Our team has rebuilt countless chimneys, delivering professional results quickly and efficiently. We take every precaution to protect your home and property, making the process as smooth as possible. While no major construction project ever feels convenient, it doesn't have to be stressful. From carefully laying down drop cloths to respecting your budget, we go the extra mile to ensure your chimney rebuild is both stress-free and mess-free.

WOOD CHASE REBUILD

MASONRY REBUILD

GROUND UP

A full chimney rebuild from the ground up involves dismantling the existing structure and constructing a brand-new chimney on a solid foundation. This process includes removing all damaged brick and mortar, repairing or pouring a new footing if needed, and carefully rebuilding the chimney with high-quality masonry materials. New flashing, a proper chimney crown, and a cap are installed to ensure long-term protection against water damage. The result is a structurally sound, safe, and durable chimney that not only functions efficiently but also enhances the appearance and value of your home.

ROOF LINE

A chimney rebuild from the roof line up involves removing the damaged portion of the chimney above the roof and rebuilding it with new brick and mortar. This process includes replacing deteriorated materials, installing proper flashing to prevent leaks, and finishing with a new chimney crown and cap for long-lasting protection. The result is a strong, weather-resistant chimney that looks great, functions safely, and extends the life of your fireplace system.

*** WARRANTY VALID ONLY WITH YEARLY INSPECTION BY A COMFORT CLASS CERTIFIED CHIMNEY PROFESSIONAL ***

KEEP YOUR HOME SAFE AND EFFICIENT WITH OUR PROFESSIONAL CHIMNEY SWEEP SERVICES

CHIMNEY SWEEP BENEFITS

A chimney sweep does more than just clean—it protects your home and your family. By removing dangerous creosote, it lowers fire risk, ensures proper ventilation to prevent carbon monoxide, improves heating efficiency to cut energy costs, extends the life of your chimney, and helps spot structural issues before they become costly repairs.

- Prevents Chimney Fires
- Avoids Carbon Monoxide Poisoning
- Increases Heating Efficiency
- Reduces Energy Costs
- Eliminates Odors
- Extends Chimney Lifespan
- Detects Hidden Problems

CHIMNEY CARE PLAN

\$279.00/year
\$21.00/mon

WHY COMFORT CLASS

Since 2006

Wow what an amazing job our service tech Kody was!! He was extremely thorough and knowledgeable about our chimney. He took pictures and explained everything that he was doing. He took the time to explain what needed to be done and why. He was also very patient with all our questions. We appreciate how personable he was also. I would highly recommend this company for all your chimney needs! I'll be leaving another review after we have the work recommended done.
-Angela S.

The techs arrived at the time as promised and provided notice they were on their way 20-30 minutes before. They cleaned the fireplace and chimney, while taking special care to protect the floors. At the end, they provided a detailed inspection report with pictures and details of everything that was performed. They were polite and knowledgeable. I will definitely use again!
-Jeff S.

COMMERCIAL & RESIDENTIAL

OUR HEATING SERVICES KEEP YOU WARMER ALL SEASON LONG

We specialize in keeping your home cozier and your heating system running as efficiently as possible during the colder months. Whether you need a quick repair, a brand-new heating system installed, or a modern heat pump added to your HVAC system, our skilled technicians are ready to help with quality heating services near you.

Trust us for:

- fast, reliable repairs for furnaces, boilers, and more
- expert installation of energy-efficient heating systems, tailored to your home
- efficient heat pump systems that offer sustainable results

COOLING SERVICES & REPAIRS TO HELP YOU BEAT THE HEAT

Don't sweat it (literally) – our team provides dependable air conditioning services near you to keep your household cool when it counts. From routine maintenance to full system replacements, we've got you covered.

With us, you'll get:

- prompt service to fix A/C problems and restore comfort quickly
- professional installation of modern cooling systems that save energy and keep your home more comfortable

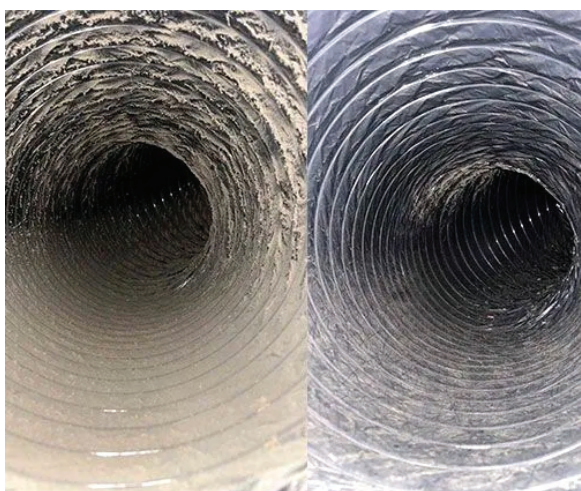

AIR DUCT CLEANING

Our venting services encompass a lot, ensuring your home venting systems not only run efficiently, but send cleaner air throughout your home or business. Count on us for:

Dryer Vent Cleaning & Repair: Over time, lint will build up inside of your dryer vent, and if not removed, can invite all kinds of issues – some inconvenient and some down right dangerous. Avoid fire hazards, carbon monoxide leaks, longer dry times, increased energy bills, and more by working with us.

Residential Air Duct Cleaning: When contaminants line the HVAC system in your home, they make your air unhealthy, while forcing the heating and cooling system to work harder to maintain your ideal temp. This results in discomfort, energy waste, and money loss. We can clear out dirt, debris, mold, and more.

Commercial Air Duct Cleaning: In a commercial setting, poor indoor air quality can lead to reduced employee productivity, increased sick days, and discomfort for customers and staff alike. Routine professional cleaning helps ensure your HVAC system runs smoother, keeping energy costs in check and creating a healthier environment all around.

COMFORT CLASS

CHIMNEYS • HEATING • AIR

G

GRIND WITH PURPOSE

We're dependable. We hustle without ego. We care about the mission and the people - not the spotlight. When the company wins, we all win.

R

RESPECT WHAT MATTERS

We respect our families, our team, and the people we serve. We don't just value results - we value each other.

O

OWN THE OUTCOME

We do the job right - not the easy way. Even when it costs more. Excellence isn't a goal - it's a mindset. Own the outcome.

W

WILLINGNESS TO THINK & WORK OUTSIDE THE BOX

We stay curious, creative, and coachable. Innovation is part of the process - so is training and leveling up.

T

TRUST THE PROCESS

We're students of the craft. We learn, we grow, and we don't stop just because something's "good enough".

H

HONESTY AND FAITH

We don't fake effort, hide mistakes, or break trust. We live honestly - always.

Our team, united in passion and purpose, continues to stand by your side, offering premium services that promise comfort and class in every interaction. Join us on this exhilarating journey as we redefine the very essence of chimney care.

Comfort Class - Where warmth meets sophistication, and where your satisfaction is our ultimate goal!

PLEASE NOTE:

All prices are subject to change without notice and will be confirmed at the time of your written quote. Estimates are based on visible conditions; additional costs may apply if hidden damage or structural issues are discovered once work begins.

Actual colors, textures, and materials may vary due to natural variations, lighting, or photography. We recommend viewing samples in person before final selection.

All work is performed by certified professionals and in accordance with local building codes and safety standards. Warranty coverage applies only to work completed by our technicians and may require ongoing maintenance as specified. Failure to maintain your system may void warranty coverage.

Project timelines are approximate and may be affected by weather, material availability, or unforeseen conditions. Offers and promotions are subject to change and may not be combined with other discounts.

Images shown throughout this booklet are for inspiration and may include optional upgrades or custom features not included in base pricing.
